## GARDEN SYMPHONY

We hope you liked Scott's bulb folder which was mailed to you last month. . . . Plant flower bulbs until the ground freezes. . . . Sometimes as late as the middle of November. . . . Spring flowering bulb beauty repays you manyfold for your time, effort and expense. . . . Each Tulip bulb in our bulb displays is twelve centimeters and up. . . . This means at least four and three-quarter inches in circumference. . . . These larger bulbs assure you larger flowers, stronger stems and sturdier root systems.

If you find it more convenient to shop on the North Side, visit our new store at 511 East Diamond Street, across from Sears and just below the North Side Market.

Clay soil can be converted to loose, porous soil with Monsanto's Krillium, Cleary's Soilam, Dupont's Formula W, Orthotil and Bacto Michigan Peat. . . . They will increase absorption of oxygen, water and plant foods while reducing crusting and erosion. . . . Bacto Michigan Peat is available for house plants at only 39¢. . . . usually 59¢.

Continue applying Dieldrin or Chlordane during this month to control Jap Beetle Grubs and other soil insects. . . . Grubs feed on grass roots and often are responsible for some browning in lawns. Fall fertilize lawns and shrubs heavily with Agrico all purpose fertilizers. . . . Next year's crab grass can be controlled with a Fall application of Fax. . . . Continue the attack on all broadleaf weeds.

If the weeds are killed in October, vigorous turf will fill in the area before next Spring's weeds can take over. . . . Seed lawns until about the middle of October. . . . Kentucky Blue Grass contains approximately two million seeds per pound while Rye Grass only contains about five hundred thousand seeds per pound. . . . Approximately eight times more grass plants in a pound of Kentucky Blue Grass. . . . Cheap mixtures, contain a disproportionate and unhealthy amount of inexpensive Rye Grass and are really more expensive.

Deep water evergreens and shrubs with an Allen root feeder as a precaution against Winter's drying winds. . . . Wilt-Pruf prevents excessive drying of evergreens and newly planted shrubs.

This is the time to plant roses and shrubs. Visit SCOTT'S GARDEN CENTER for handpicked nursery stock. . . . You may find less expensive nursery stock elsewhere but you certainly will find the highest quality at Scott's. . . . Incidentally, our toy stock is ready for Christmas and we urge you to visit Scott's Garden Center before buying elsewhere. . . . Quality toys, fair prices, double S&H Green Stamps and a lay-away plan are all part of Christmas at Scott's Millvale Garden Center.

Mice, rats and other rodents seek shelter for the Winter. . . . Choose from our large assortment of Pesticides to rid the area of these pests. Our pet supplies, bird seed, and wild bird feeders offer one of the largest selections in years. . . . Please don't hesitate to bring your gardening problems to us. . . . We have enjoyed helping Pittsburghers and their neighbors for more than 82 years.
